Letter From The Principal

To The Class of 2012,

It is with great pleasure and pride to write a message for you for your yearbook. I feel fortunate to be the principal of Mansfield High School and to be apart of your academic and personal growth. Your class will always have a special place for me, as you are my very first class as principal of Mansfield High School. I remember challenging all the members of the Class of 2012 on the opening day of school to set a positive example in the classroom, the hallways and in your extracurricular activities. You exceeded my call to be role models for the underclassmen, as well respectful ambassadors of our school community. Your work was exceptional. You have donated many hours of volunteer work to countless numbers of charities. You were dedicated to adding to the rich and successful legacy of our academic, athletic, visual and performing arts programs.

Congratulations to the Class of 2012. On behalf of the staff we thank you for your achievements and contributions. We are proud of you and wish you success and happiness as you move forward with your post high-school plans. Upon your graduation you will become a member of the MHS Alumni. We hope that your are proud of this and look back upon your time as positive and enriching. I urge all of you to stay in touch and find ways to stay connected to the community that helped to foster your development over the past thirteen years.

Respectfully,

Michael T. Connolly

Dedication

To Mrs Jarvis and Ms. McManus,

Thank you for all you do. Having you as the Class Advisors of 2012 really make it a special year to graduate. What we have learned here at Mansfield High School will stay with us forever. We are grateful to call you our Class Advisors of 2012!

Thank you,
Mansfield High School

Going Green!

"The Green Difference!"

Green Schools of America has teamed up with The Little Green Hornets to help encourage kids to get involved in keeping our Earth clean for future generations.

A green house was set up near the lacrosse field.

Whats actually going on in our school?

Recycling bins are everywhere and project teammate collects and empties them twice a week.

Reusable water bottles; everyone has them and they create much less waste.

Fallon Finegan

"In the future I can't wait to see
if you open up the gate for me.
I reminisce sometimes,
the night they took my friend.
Try to black it out but it plays again
when it's real the feelings hard to conceal,
can't imagine all the pain I feel,
give anything to hear half your breath,
I know you're still living your life after death."

PLANKING

The internet sensation...

Planking is the act of lying face down for a photograph. The term planking originated from Australia but is actually just another name for 'the lying down game.'

Who cares what someone else thinks? In all honesty, it doesn't matter. Throughout these years you've all been so concerned with what someone else thinks that you've forgotten what to think of yourself. I didn't care what you think of me and I survived just fine, probably even better. Do what makes you happy and forget what all the nobodies say. There are no limits as to who you can be. Don't let someone deprive you of being your true self. into the clouds as they pass by. You have to leave the ground to learn to fly." ~Zox

The past four years that I spent in Mansfield High School were very unique and interesting. I had many interesting classes but physics was definitely my favorite class because I really didn't learn anything about physics instead I learned so much on space elevators, the color yellow, string theory and other random but interesting things from the best science teacher ever JCB. After high school I may never speak to most of my friends but at least we had great times during those 4 years and we have some pretty good memories that we can tell our children. I will miss everybody and I hope everyone keeps having fun and succeeds at life. SENIORS 12

I would like to start off by thanking all my friends for dealing with all my puns. You guys are troopers. It's hard to believe 4 years of high school have gone by, now the rest of our lives is about to begin, "All we need to do is show a little class, a little sophistication, and we're in like a dirty shirt". I would like to thank Mrs. Newton and Mr.McGuire for helping me become a better musician. Music is my passion and I'm always looking to improve. Joining choir was one the best decisions I made, I highly recommend it to anyone who loves music. My friends are the best i could ask for, I love you guys. Peace out Mansfield High school.

I find it kind of wrong that I've put more thought and effort into writing this blurb than into writing my college essay.
We can only hope that the college essay doesn't turn out as badly.
See you all in ten years! It might be interesting to see how people have succeeded or failed after they've left school. I know I hope to prove all of you wrong about what someone can do with an art degree.

Do not hold ill will towards others,everyone deserves a second chance.Always give others the chance to explain,it is far too easy to misinterpret anything not explicitly stated.Think with your head but listen to your heart it is easy to overuse either of them.All of our futures have been started here,and thus all of our stories are connected.Everything we do from now on has been affected by what has happened in our time here.Though miles will separate us, we are all connected.Do not regret anything that has happened here as you would never be where you are today ihadn'thappened..

Ms.Martinelli, J-Mart!!!!!!, you're the best you helped me make it through my art classes, and you're my homeroom teacher, plus you don't require I wear shoes.You are my favorite teacher and I hope this little child you have grows up to be just like you.

To the foreign language department- Thank you, for awakening within me and so many others a love and appreciation for the world. It is easy, in a small town , to never take off out blinders to see the different ways of living- we often keep our minds closed. I will always remember you all, for the unique ways you helped me learn to embrace the entire world, and all the gifts it has to offer. Please, never forget the impact you made on me, and please remember that the gifts you are giving us are more valuable than any treasure.

Logged in as Patrick Maloney Log Out

Ms. Suriani, Even though you are getting married this June, you will be Surians Forever. Your excitement and passion comes through whether you are in the classroom, on the volleyball court, or anywhere else. You sparked my love for politics with our months of discussion on the '08 election. You kindled my love for volleyball with the Lady Hornets. You are the kindest person, and so down to earth.The shenanigans from Western Civ with you freshman year will always put a smile on my face. Your unrelenting support of the Volleyball Superfans will always be remembered. You are an amazing person, educator, coach, and friend.

Thanks to Mr.Foley I now know how to fully exploit my constitutional rights and that it is not socially acceptable to eat people, even if they say its ok. And thanks to Mr. Rice I understand that teachers are really sumo wrestlers with warped perceptions of Eastern Philosophy.

Logged in as Tori Shannon Log Out

Mrs. Hogan- Thank you so much for taking the time to work with me in the classroom! You have made such an impact on my life and have inspired me to continue my education, without you I would not be the student and individual I am today. I owe all of my future success to you. YOU ARE THE BEST TEACHER! I look forward to keeping in touch with you!!!

Logged in as Taylor Donnelly Log Out

Ms. Ingelfinger- your class is the best and worst class I will ever have. Your tests were hell and the stress was about a 12 out of 10. But we kicked those freshman's butts in that dance off and in exchange they made us a fort! Notes are BAD but the competition made them awesome and the debates (with songs)... need I say more. Mock Trial is awesome thanks to your jokes about everything including hedgefunds. Who thought court about economics could be so entertaining. Thanks so much for making High School interesting. You are the best! Try not to celebrate too much when I am gone.

Logged in as AP language and composition class Log Out

Mr. Sheehan- Thanks, first of all, for putting up with the laziest AP class to ever enter the doors of MHS. Thank you for teaching us that there is an argument for everything, including and not limited to, the outbreak of syphilis in suburban Atlanta schools. Thank you for "the way you do the things you do" Thank you for your constant elitism and consequential denial of it. Thank you for your ties. Thank you for inspiring Courtney's dreams and arguing with Kenny about atheism. Thank you for smooth jazz on a regular basis. Thank you for showing Easy A. Also thank you for the talks about gender roles, and not taking our sexist jokes seriously, even though you probably should have. Thank you for making us take our practice AP exams. And most of all thank you for reminding us that we are still kids, and at the same time, teaching us how to grow up.

In Memory of

Nancy Kitchen

Athletic Secretary 1989-2011

"For 22 years Nancy Kitchen worked as the Athletic Secretary for Mansfield High School. She was much more than the secretary, she was the team captain! Her performance as the team leader was truly stellar- the envy of every coach in the system. She was the quintessential captain as demonstrated by her work ethic- a work ethic built on a foundation of diligence, tenacity and meticulous attention to detail.

Year after year, season after season, team after team - she was the ultimate team player! No such thing as too much work. Certificates, letters, schedules, official forms, buses, planning retirement parties, athletic banquet slide shows and user fees. It seemed like every year something was added to her job description (without deletion). They don't make 'em the way they used to. It is no secret that she was the glue that held it together, the cog that kept the machine running. She will be greatly missed." - Theresa DeGirolamo

"Twenty years from now you will be more
disappointed by the things you didn't do
than by the ones you did.
So throw off the bowlines,
sail away from the safe harbor.
Catch the trade winds in your sails.
Explore. Dream. Discover."

We're so proud of you,
and the young man
that you have become.

Love,
Mom, Kerry, Courtney, and Jimmy

Nick

As you well know it would not be a message from us unless you were left with some guidance to carry with you.

- "Approach challenges with commitment - Step up to the plate"

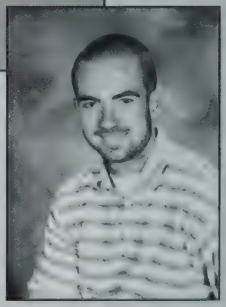
- Try to get some good sleep

- It only takes trying something once to change your life

- "Shoot for the moon. Even if you miss, you'll land among the stars."
- Les Brown

- Treat Others as you would like to be treated

- And finally - Money does not grow on trees!!!



We are so proud of you and all that you achieved.
Follow your dreams and remember to have
fun along the way.
We will always be here for you.

Congratulations!!!

Love,
Mom & Dad & Tyler

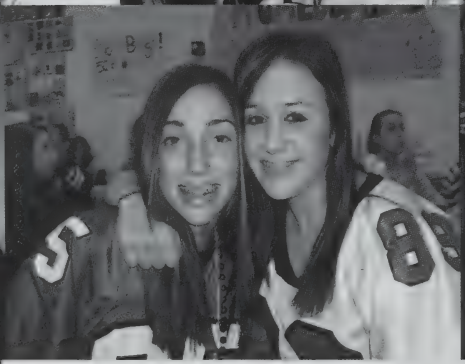
In loving memory of

Michaela Smith



If I should go tomorrow
It would never be goodbye,
For I have left my heart with you,
So don't you ever cry.
The love that's deep within me,
Shall reach you from the stars,
You'll feel it from the heavens,
And it will heal the scars.
